Starting as a Penn State architectural student intern in the summer of 2005, after graduation, Peter joined the firm full-time in 2007 and is currently a Project Manager and CADD Technician.

Peter developed an interest in the world of architecture at a young age while observing the work of his father at his construction company. This passion led him to the 5 year architecture program at Penn State University. A spirited automotive enthusiast, Peter designed a motor sports resort for his thesis project. Peter's area of expertise include educational, religious, commercial, and healthcare projects.

When not in the office, Peter enjoys instructing high-performance driving, skiing and spending time at the beach.
